FOR IMMEDIATE RELEASE

City of Demorest – Police Department Administrative Review

The City of Demorest recently became aware of concerns among the civilian employees within the Demorest Police Department regarding the civilian area of responsibility. In response, the City engaged an independent investigator to conduct interviews and provide an objective assessment of the situation.

The review determined that the issues identified involve management challenges and interpersonal conflicts among certain civilian staff. These matters are administrative in nature and are being addressed by the City.

The review did **not** involve the Department's certified law enforcement officers, and no information was identified suggesting any concerns related to sworn personnel.

The City of Demorest is committed to maintaining a professional and effective workplace and to ensuring that all departments continue to serve the public with integrity and accountability. Appropriate steps are being taken to address these internal matters and to support a productive working environment moving forward.

For additional information, please contact Demorest City Manager Mark Musselwhite at (706) 778-4202.
