Subject: School Threat

On Friday August 14th, 2026 between 1400-1500, at Wilbanks Middle School a student while in art class made threats to "shoot the school up!" Sgt Addis is assigned to Wilbanks and took the day off. I was at Wilbanks Middle School most of the day due to his absence. I had left to go assist with traffic at Clarkesville Elm. I was not contacted by the school.

This morning August 17th, 2026 I was contacted by Sgt Addis stating Chief Kogod was at Wilbanks Middle School for a meeting. After the meeting Sgt Addis was notified by Mr Johnson he might need to go check on a parent. Mr. Johnson stated to Sgt Addis that a parent was scheduled to be at a meeting this morning with Principal Chitwood and Chief Kogod and didn't show. This was the parent of the kid which made the threats.

Sgt Addis nor I was notified of this incident which occurred on Friday, nor were we included or had knowledge of the meeting of the parent. We had no knowledge until Sgt Addis was asked to check on the welfare of a parent.

Chief Kogod has not advised me of this incident. We have only gathered information based on what Assistant Principal Johnson has disclosed as of this email notification. Appears that Kogod is conducting his own investigation and not including the SRO assigned to that school or I.
